KCM SUPPLY CHAIN
SOLUTION PVT. LTD.

Supply chains that are agile, adaptable, and aligned provide companies with sustainable competitive advantage. KCM Logistics is able to respond quickly to changes and disruption, and the ensuing changes to demand also recover quickly from these disruptions. Started in 2015 currently having presence in South India offering an expanded array of value added supply chain management services, including First Mile, Mid Mile, Last Mile, Milk Run, Line Haul and Warehousing.

KCM Supply chain Solutions Pvt Ltd offering is build up by long-standing partnerships with reputable sub-contractors, and experienced drivers of our large fleet of vehicles, ranging from one ton to 30 ton, trucks that carry all types of closed body container. We dedicate ourselves to providing real quality transport and logistics solutions that are built upon safety, integrity, customer service and market-related pricing.

OUR TEAM

Ingenuity, transparency, passion and purpose driven team provide a competitive and reliable supply chain services for internal & external stakeholders.

Right from the recruitment stage to training, we infuse core values like empathy, integrity accountability and Innovation.

This has helped us to become leading player in the logistics and supply chain industry.

TIMELINE

2015

Humble Beginning

Karnataka Cargo Movers, was incorporated in 2015 with just one vehicle and in late year started working with Snapdeal and Flipkart to provide Last Mile Services.

2016

Best Vendor in South India awarded by Flipkart for achieving successful Last Mile Operation across Bangalore city. Partnered with Ninjacart, Amazon, Delhivery and Reliance Industries added 20 new vehicles to our fleet.

2018

Karnataka Cargo Movers converted to KCM Supply Chain Pvt Ltd. adding 25 team members and in our own corporate office in Bangalore.

2019

Warehousing vertical started with Flipkart as our customer in Bangalore City and Tier 2 cities in Karnataka.

2020

Reliance recognized KCM logistics as National Vendor mid mile, Milk run, National Lanes, Line Hauls for Reliance and Flipkart.

2021

Achieved PAN India mid mile and last mile with Homelane as our client. Achieved Fleet count of 750+ including own and partner vendors.

First Mile

Unlike other companies we pay more attention to First Mile, to achieve greater efficiencies, and to reduce costs in a highly competitive environment. With our TMS (Transportation Management System) visibility in the logistics processes between the manufacturer and distribution center is transparent.

Trained manpower to pack and load produces have proved our capability in bringing damages to minimum.

KCM Supply chain Solutions Pvt Ltd offering is build up by long-standing partnerships with reputable sub-contractors, and experienced drivers of our large fleet of vehicles, ranging from one ton to 30 ton, trucks that carry all types of freight. We dedicate ourselves to providing real quality transport and logistics solutions that are built upon safety, integrity, customer service and market-related pricing.

Mid Mile

Gain visibility and a solid sense of calm by joining your supply chain across the full span of delivery services. Our mid-mile services allow you the clarity and consistency of working with single service provider. You'll know where your freight is at any point in the delivery process.

Often in the mid mile, it can be a hassle to organize and manage shipments that are less than a full truckload. We manage this, ensuring your shipment whatever the size is delivered to your distributors and retailers.

We offer line haul services with FTL and project load bookings withing cities with 24x7x365 digital tracking and tracing.

Overflow and just-in-time customer requirements are also accommodated.
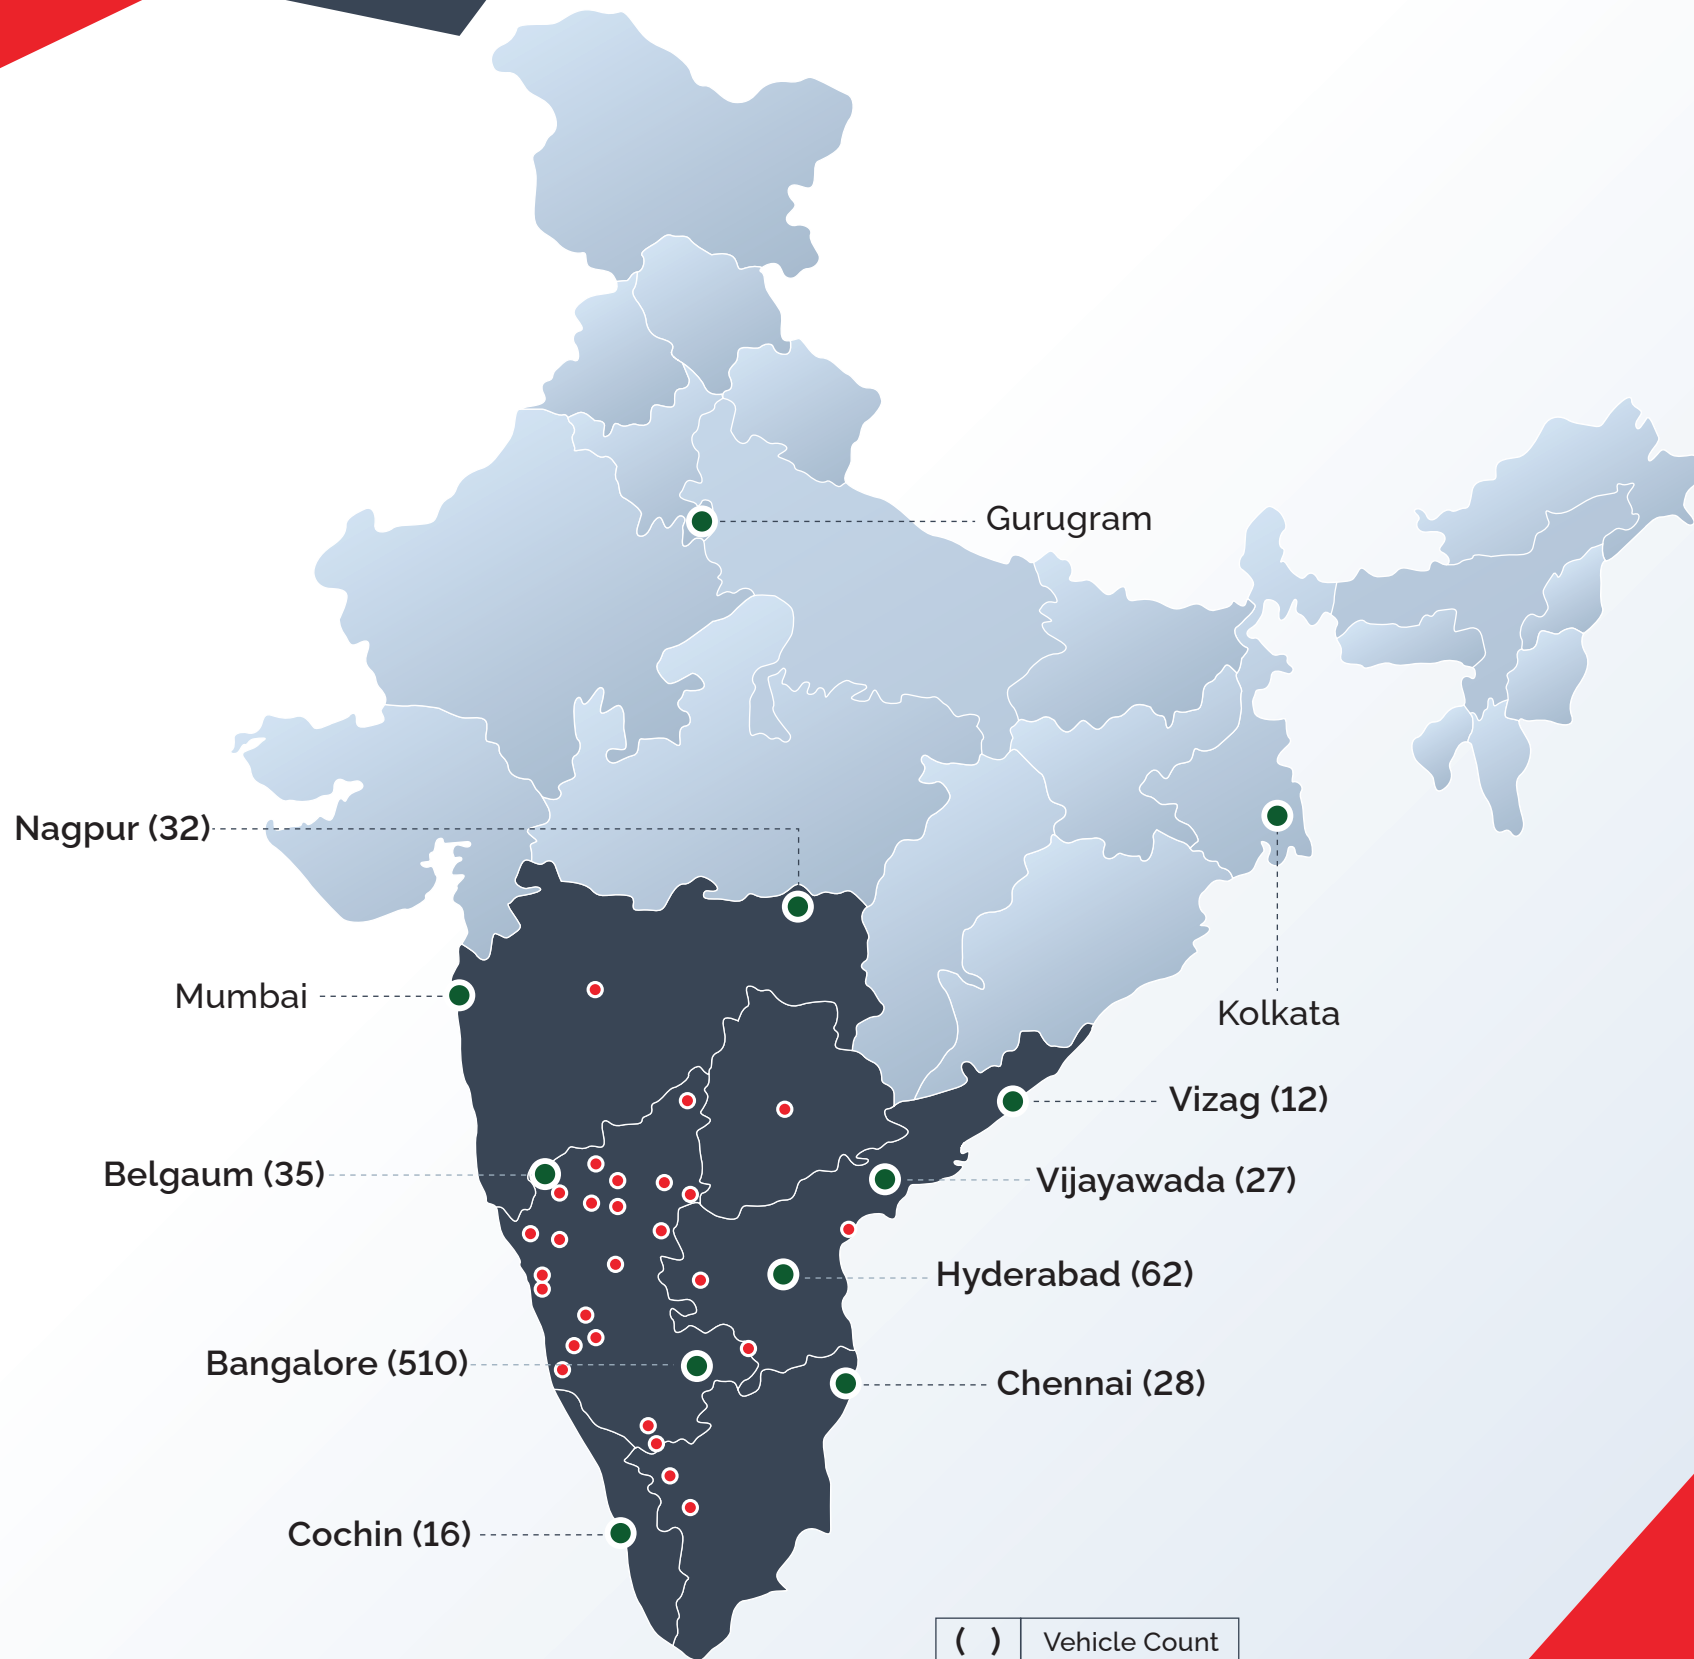

Last Mile

Our powerful and feature-rich last-mile logistics solution allows you to visualize various important metrics, such as service times, on-time rates, success rates, distance travelled, feedback scores, and much more. Our goal of last mile delivery logistics is to deliver the packages as affordably, quickly and accurately as possible.

WAREHOUSING SERVICES

Our round the clock warehousing services supports the supply chain by offering secure area whether it is FMCG, General Retail Merchandise or Electronics. This has empowered us to offer better quality infrastructure and facilities at affordable rates. Our warehouses are also fully supported by our Logistics capabilities and thus we have a flexible mechanism to offer pick up and deliveries based on needs.
